# HIGH CAPACITY ROTARY SIFTER

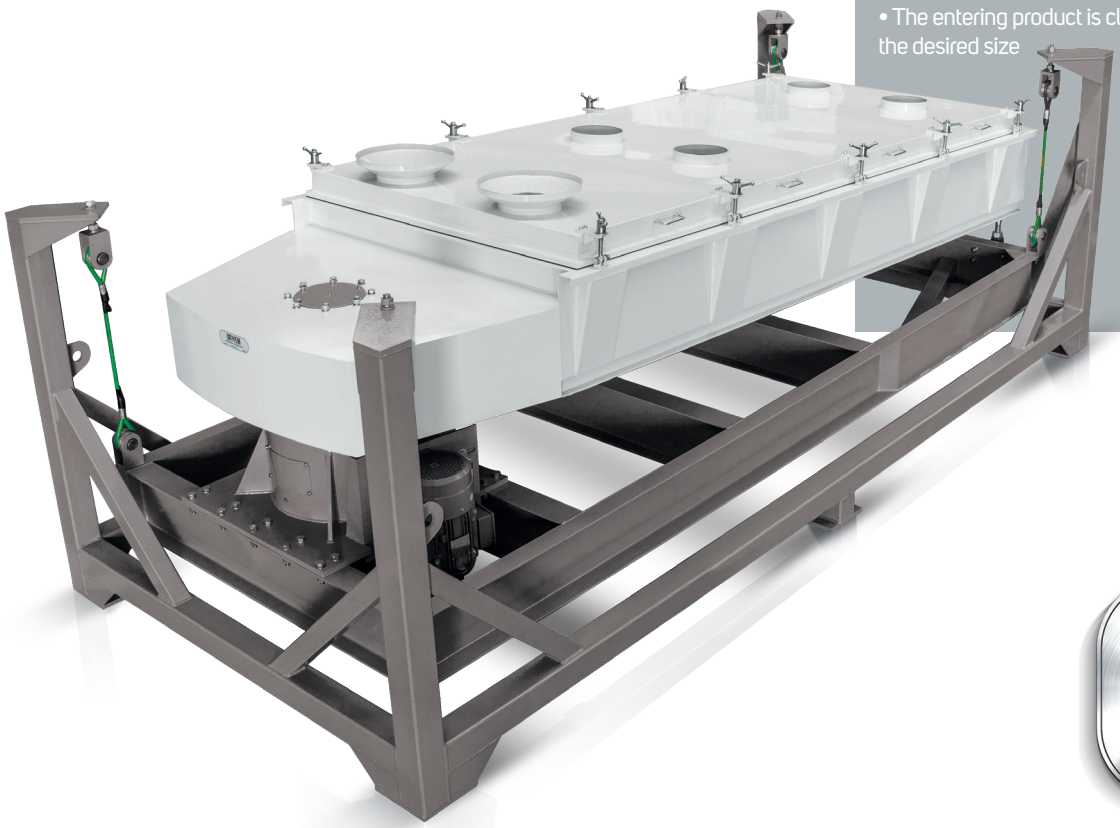
## YÜKSEK KAPASİTELİ DÖNER ÇALKALAYICI ELEK

1. To provide pre-mill screening
2. To ensure the sieving of the pellet coming out of the pellet press

In the pre-mill screening process, the products classified according to grain size are sent to the hammer mill and roller mill. The products are then sent to the powder mixer, and the pellets are separated from the powder in the sieving process after the pellet press. The pellets are sent back to the finished silos and the powder is sent back to the pellet press.

**FEATURES:**

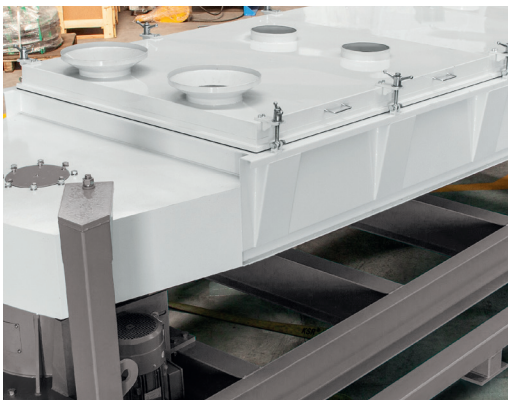
- High Sifting Capacity
- It has maintenance body covers that can be intervened during elimination
- The sieve combines circular oval and linear motion modes, excellent sieving performance
- By the compact structure, it can be installed easily
- It enables sifting in desired sizes
- It has a bolt-connected structure and is easy to maintain and disassemble
- The entering product is classified according to the desired size



OR-CS 40

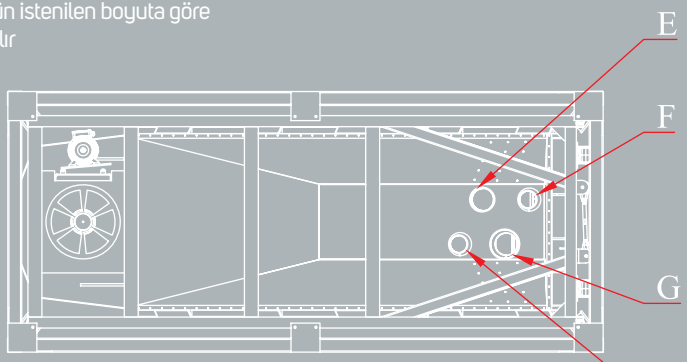
1. Değirmen öncesi eleme sağlamak
2. Pelet Presinden çıkan peletin elenmesini sağlamak

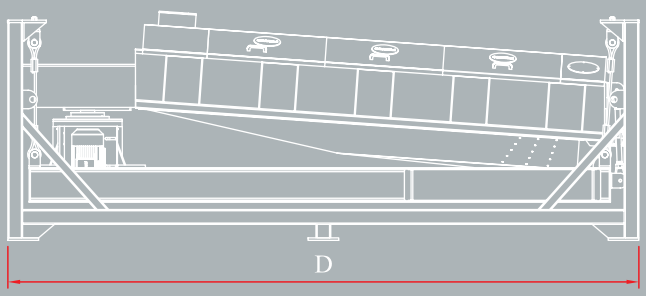
Değirmen öncesi eleme işleminde tane boyutuna göre sınıflandırılan ürünler Çekiçli Değirmen ve Valsli Değirmene gönderilir. Daha sonra toz karıştırıcıya gönderilen ürünler, Pelet Presi sonrası eleme işleminde peletler tozdan ayrılır. Pelet, mamul silolara; toz ise Pelet Presine geri gönderilir.

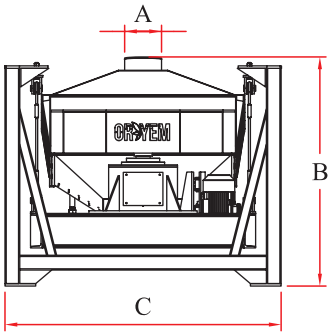


**ÖZELLİKLERİ:**

- Yüksek Eleme Kapasitesi
- Eleme anında müdahale edilebilir bakım gövde kapaklarına sahiptir
- Elek, dairesel oval ve doğrusal hareket modlarını, mükemmel eleme performasını birleştirir
- Kompakt yapısı sayesinde kolay montaj edilebilirler
- İstenilen ölçülerde eleme imkanı yapar.
- Civata bağlantılı yapıdadır, bakımı ve demontajı kolaydır
- Giren ürün istenilen boyuta göre sınıflandırılır







| Type Tip | Motor (kW) | Machine Dimensions / Makina Ölçüleri (mm) | | | | | | Capacity Kapasite T/S-T/H | Weight Ağırlık (kg) |
|---|---|---|---|---|---|---|---|---|---|
| | | A | B | C | D | E | F | | |
| OR-CS 40 | 5.5 kW | 1790 | 2245 | 5130 | Ø300 | Ø150 | Ø200 | 30 - 40 | 3800 |
